2014 Annual Report

We Measure Growth in Smiles

Lindquist Dental Clinic for Children
Thanks to you 2014 was another successful year for Lindquist Dental Clinic for Children. We are so proud to share with you our progress on all fronts including: our dental clinics, outreach efforts, donors and community partners, our staff and volunteers and most importantly – the children in need we serve. At LDCC, we believe every young person needs and deserves healthy teeth, a confident smile, plus the knowledge and tools to maintain good oral health for life! In 2014 we made strides toward that goal and served more children than ever before – providing over 40,000 patient visits!

While we have achieved much, we still have more work to do. Tooth decay is preventable and treatable yet there is a gap between those needing service and access to affordable care. With your support we will continue to focus on our mission of providing accessible, compassionate and effective dental care to Puget Sound children in need, ages 0 thru 18 with no child being turned away due to inability to pay!!!

Please see the following pages for additional information about our 2014 achievements and program highlights. On behalf of our staff, our Board of Directors, and the Puget Sound children in need, THANK YOU for your continued partnership.

With gratitude,

Carolyn McDougal
President and CEO

Sarah, a 16 year old girl, began disengaging from her family, friends and school. She began missing a lot of school, her grades dropped, she didn’t want to talk with people and began changing her appearance; holding her head down and having her hair hang over her face. Her mother was extremely concerned and didn’t know what was going on with her daughter and feared she was becoming involved with drug use. One evening, as they were eating dinner, her mother noticed a very large black spot on her front tooth. She called LDCC and we got an appointment for her daughter the next day. Sarah had severe tooth decay that was causing her pain, embarrassment, low self-esteem and not wanting to interact with others or go to school. LDCC was able to treat the dental disease helping Sarah to regain her smile, feel more confident and reengage with her family, friends and school. In fact, both she and her mother were so excited they came back to LDCC to thank us and share the excitement; Sarah’s grades improved and she felt so confident she tried out and made the cheer squad! Both Sarah and her mom both shared that now Sarah just can’t stop smiling!

“I came to this dentist with 12 cavities and with their dedication and help I now have great teeth. Best dentists ever! I totally recommend this place for kids.”

Based on a true story; names changed and stock photo used to protect patient privacy.

With your support, we are truly making a difference in the oral health of our community, one exceptional child at a time! In 2014, our team of over 47 employees provided dental care via 40,452 patient visits to 20,626 unique Puget Sound children in need!
Who did we serve in 2014?

Lindquist Dental Clinic for Children provided dental care to 20,626 unique Puget Sound children in 2014, of which:

**Demographic**
- 94% Low-Income Families
- 85% Utilizing WA Apple Health (Medicaid)
- 10% Children in Military Families
- 5% Children with Disabilities
- 3% Foster Children

**Race + Ethnicity**
- African American: 2%
- White: 8.9%
- Hispanic: 0.7%
- Native America/Alaska: 0.6%
- Asian/Pacific Islander: 2%
- Multi-Racial: 5%
- Other/Unknown: 7%

**Age**
- 0-5 Years Old: 18%
- 6-10 Years Old: 52%
- 11-15 Years Old: 22%
- 16-19 Years Old: 7%
- Unknown: 1%

**Gender**
- Male: 47%
- Female: 53%
When describing their experience at LDCC, a military mom described how the staff make her children feel comfortable and at-ease while at the clinic for care. She continued to explain that the staff, “take the time to comfort our girls and use “fun-child” language to explain what they are doing during the visit.”

“It has been such a blessing to have great dental care for a minimal (if any at all) cost out of pocket!”

Did you know that in support of our troops, LDCC offers no out-of-pocket costs for covered dental services for income qualifying families with TRICARE Dental?

“Being a military family, we have to find new dental care each time we move to a new duty station. A friend recommended Lindquist Dental Clinic for Children because of their wonderful incentive for military families.”

Your smile goes with you
Our Mission:
Provide accessible, compassionate, and effective dental care to Puget Sound children in need.

2014 Growth

Outreach
- Appx. 116 outreach events * Roughly 16% increase over 2013 where we estimated 100 events
  *This does NOT include tours given; Includes oral health education and outreach events

School Based Programs
- School Based Programs grew 26% with 9227 unique children being served; and 35 schools on board for 2014-2015 school year.

New Patients
- We had 3322 new patients in 2014 a 6.9% increase over 2013. 27.4% of our total patients were new patients.

Volunteer Program
- Volunteer Program completely developed, documented & engaged with 40 individual volunteers
- 2682 volunteer hours *
  * Not including Board and externs
- Poised for greater growth and expansion in 2015
Thank you to our 2014 partners for helping us provide healthy smiles!
